A Collaborative Approach to Achieving Department of Health SHI P Measures and Oral Health Florida SOHI P Indicators

Donna Solovan-Gleason, RDH, PhD
Public Health Dental Program
August 1, 2014
Collaboration on Mutual Goals for Improving Oral Health in Florida SHIP and SOHIP

• Two organizations working toward mutual goals.
• Recent revisions in both plans address shared focus areas:
  * Improved Access to Quality Health Care Services
  * Increased Water Fluoridation
• Collaborative Planning and Partnership for Implementation of statewide initiatives.
Parallel Objectives for Improved Access to Care

SHIP Measures

• By Dec. 31, 2015, increase the percentage of Medicaid children receiving dental services from 23.4% (2010) to 25.9%.

• By Dec. 31, 2015, increase the number of CHDs, FQHCs, or other local entities participating in school health or other types of community-based sealant programs from 11 in 2010 to 35.

• By Dec. 31, 2015, increase the percentage of Medicaid eligible six to nine year old children who have received a sealant on one molar tooth from 7% (2010) to 9.5%

SOHIP Objectives

• Increase percentage of Medicaid/SCHIP eligible children receiving any dental services.

• Percentage of Florida schools with school-based sealant programs.

• Total number of children who receive a sealant on a permanent molar tooth.
Executive Office of the Governor  Measure

By December 31, 2014, increase the number of CHD dental clients served by 10% from 231,922 (2011) to 255,100.
EOG Measure: By December 31, 2014, increase the number of CHD dental clients served by 10% from 231,922 (2011) to 255,100.
Parallel Objectives for Community Water Fluoridation

SHIP Objectives

- By Dec. 31, 2015, increase the percentage of the Florida population served by community water systems with optimally fluoridated water from 78.7% (2008) to 78.9%.

- By Dec. 31, 2015, develop and implement at least two educational strategies (examples: PSA’s, Fluoridation Fact Sheet for website, fluoridation positive message on business size cards) to promote the benefits of community water systems with fluoridated water.

SOHIP Objectives & Strategies

- Percentage of population on community water systems receiving fluoridated water.

- Mobilize local coalitions to advocate for community water fluoridation.

- Lead proactive educational campaigns and community mobilization.
Parallel Strategies for Data Collection

**SHIP Objectives**

- By June 30, 2015, develop a data collection and surveillance plan for tracking specific oral health indicators for Florida in collaboration with the Oral Health Florida Coalition.

**SOHIP Strategies**

- Develop a statewide oral health surveillance plan.

- Advocate for higher Medicaid reimbursement for dental care.
To protect, promote and improve the health of all people in Florida through integrated state, county, and community efforts.

**Partners in Surveillance**

- Local Health Departments
- Oral Health Florida and Action Teams
- Agency for Health Care Administration
- Florida Association of Community Health
- Schools, School Health Coordinators
- Florida Dental Association
- Florida Dental Hygiene Association
- Head Start
- Florida Public Health Institute
- Association of State and Territorial Dental Directors
- Dental Colleges and Dental Hygiene Programs.
