

Indian River County Oral Health Coalition

Strategic Plan

Goal 1: Generate awareness and recognition of the Oral Health Coalition

- A. Identify current members through Community Members listing of IROHC.
- B. Identify potential members.
- C. Identify potential partners/funding.

Goal 2: Improve and provide access to oral health education to children, adults, and seniors.

- A. Identify opportunities for oral health education for children.
- B. Identify opportunities for oral health education for adults.
- C. Identify opportunities for oral health education for seniors/caregivers.
- D. Acquire oral health resources to provide oral health education.
- E. Provide oral health education to children, adults, and senior/caregivers.
- F. Develop an organizational listing showing current dental services and agencies.
- G. Develop chart of IRCOHC community partners.

Goal 3: Improve county-based oral health data collection and research.

- A. Coordinate with Oral Health Florida Data Collection Action Group to establish an oral health surveillance system consistent with state-wide efforts.
- B. Adopt the state-wide outcome/disease based surveillance system in order to create county specific profiles.
- C. Implement the adopted surveillance system into community health agencies throughout Indian River County.

*Improve the oral health status of citizens of Indian River County
through accurate information and improved access.*

"Healthy Mouth, Healthy Body," adopted by Oral Health Florida
