

ONE HEALTH

GRADUATE PROGRAMS

The One Health concept seeks to include human, animal, and environmental experts in solving difficult public health problems. Internationally applauded, the One Health approach is strongly endorsed by human medicine, public health, veterinary medicine, the CDC, and various other national and international institutions and organizations.

PhD in Public Health

One Health Concentration

The PhD in Public Health with a concentration One Health is a research-oriented health degree that emphasizes working across public health, veterinary health, and environmental health disciplines to tackle difficult health problems. The PhD program focuses on global health and infectious diseases while emphasizing research and elements of grant writing and funding. This is the first known One Health PhD program in the world.

Public Health Core: 15 credits
Quantitative Methods: 12 credits
Concentration: 36-38 credits
Professional Issues: 5-7 credits
Advanced Research: 3 credits
Supervised Teaching: 2 credits
Dissertation: 15 credits
Total: 90 credits

Funding in the form of scholarships and assistantships is available on an individual, competitive basis.

Tuition Rates (2012-2013)
In-state: \$449/credit + fees
Out-of-state: \$1249*/credit + fees

Length of Program **2-5 years**

Master's of Health Science

One Health Concentration

The MHS program is designed to provide students with advanced analytical skills for applied research careers and a solid knowledge base of public health and theory. This degree includes advanced applied research and technical skills needed to address emerging and global environmental health threats. The MHS curriculum addresses a diverse range of health issues but has a strong focus upon infectious diseases. Courses are carefully structured to enable students to develop competence in very specific health skills. This is the first such One Health MHS program in the United States.

Public Health Core: 12 credits
Concentration: 24 credits
Professional Issues: 1 credit
Field Experience: 3 credits
Total: 40 credits

Tuition Rates (2012-2013)
In-state: \$449/credit + fees
Out-of-state: \$650/credit + fees
As noted, out-of-state MHS students receive a significant reduction in Florida's graduate out-of-state tuition rates of \$1249/credit + fees.

Length of Program **1-2 years**

Certificate in One Health

The Certificate in One Health is designed to introduce the graduate student to the principals of One Health. The primary purpose of this Certificate is to provide One Health training to public health, veterinary health, and environmental health professionals and students who wish to follow such careers. Training includes lectures, tutorials, field experiences, laboratory exercises, public health demonstrations, and written exams.
