

16 Ways to Save Money in the Laundry Room

Snuffleupagus

Laundry is no one's favorite chore, and it doesn't help that washers and dryers are among the costliest appliances to operate. Since most of us do at least a few loads of laundry each week, it's worth taking steps to reduce energy use.

Here's how your washer and dryer compare to two other high energy users in your home your refrigerator and dishwasher:

If you're in the market for a new washer and dryer new efficient options are available that will save you money over the long term.

But there are ways to save money and energy in the Laundry room and reduce the wear and tear on your clothes and some of them won't cost you a thing. Here are some things you can do to save in the Laundry room:

1. Wash with cold water.
2. Wash full loads.
3. Dry right sized loads for your machine.
4. Air dry when you can.
5. Switch loads while the dryer is warm.
6. Use dryer balls.
7. Clean the lint filter on the dryer.
8. Use the high speed or extended spin cycle in the washer.
9. Use lower heat settings in the dryer.
10. Dry towels and heavier cottons separately from lighter weight clothes.
11. Use a cool down cycle if your dryer has one.
12. Use the moisture sensor option if your dryer has one.
13. Sign up for time of day programs with your utility.
14. Use an ENERGY STAR certified washer and dryer.
15. Consider a gas dryer .
16. Consider a heat pump dryer.
